

AI Interaction Toolkit

From: AI is finally learning to shut up | aiuxdesign.guide/news

The Intent Clarity Spectrum

Match your interaction model to how well users can articulate what they need

Find Your Position

Check all that apply to your AI feature. Count your checks to find where you land.

☐ User intent can be inferred from context

☐ This interaction happens frequently (daily/weekly)

☐ User doesn't need to see AI's reasoning

☐ Stakes are low - easy to undo if wrong

☐ AI already has the context it needs

YOUR RESULT
